## PROJECT WAS RUNNING IN VARIOUS COUNTRIES

Argentina, Brazil, Paraguay, Uruguay

## PROJECT DESCRIPTION

The project aimed to assist MERCOSUR Central Banks in harmonizing monetary, credit, and interest rate statistics to support economic integration. It focused on strengthening cooperation among the banks, developing common and reliable statistical indicators for macroeconomic analysis, and enhancing institutional capacities.

Key results included the creation of harmonized indicators and the development of a harmonization manual. ICON-INSTITUT provided hands-on assistance to Central Bank officials in producing comparable data sets and applying seasonal adjustments to improve accuracy. Overall, it contributed to a more unified and transparent statistical system across MERCOSUR, supporting economic cooperation and monitoring.
