ICON's Projects and Offices

Fields of Work

Water Supply

- Assure permanent access to good quality water and make it affordable
- Safeguard reliable and sufficient supply of water

Waste Water Disposal

- Collect sewage in sound ways, increase hygienic conditions and reduce health hazards
- Treat wastewater appropriately using methods tailored to prevailing conditions

Integrated Water Resources Management

- Manage and protect scarce resources
- Enable fair access to water by all stakeholders

Waste Management

- Implement and optimise waste management adjusted to local conditions
- Conserve natural resources and help to transform informal waste scavenging practises into formal public systems contributing hence to improved living conditions of the concerned poor people

Energy Efficiency, Renewable Energies

- Save resources and reduce energy consumption without reducing living standards
- Provide island solutions for remote places to generate better living conditions

Climate Change

- Assist in the development of emission reduction strategies and measures
- Develop solutions for Clean Development Mechanism (CDM) and Joint Implementation (JI)
