ICON's Projects and Offices

Our Approach

ICON Agriculture and Rural Development provides high quality professional services covering the full project cycle from design to planning, implementation and evaluation of technical financial assistance projects. The company's responsible, client driven and proactive approach is guided by the pursuit of sustainability. The approach combined with professional excellence is very well recognised and appreciated by customers and contractors.

ICON has developed a holistic approach systematically covering all levels of highly relevant interventions. This systemic view of the provision of technical assistance implies a thorough analysis of and guidance by the following clearly interrelated levels:

Macro-Level

Improvement of regulatory and legal environment

Meso-Level

Consultancy Support / Capacity development to institutional sustainability

Micro-Level

Provision of services to small and medium sized agriculture based entrepreneurs and associations

Our Services

Agribusiness

- Food value chain development
- Food safety
- Economic promotion of agriculture products

Food Security

- Sustainable food production
- Food justice
- Food sovereignty

Agriculture Sector Analysis and Policy

- Support of policy dialog
- Formulation of guidelines, strategy documents and laws
- Data collection, analysis and statistics

Natural Resources

- Environment and climate change
- Reducing emissions from deforestation in developing countries (REDD Plus)
- Protected areas and buffer zone management
